

POSITION DESCRIPTION

PNG Ports Corporation Limited

AM3692 - Senior Engineer - Civil

Our client, **PNG Ports Corporation Limited (PNGPCL)** is a premier maritime service company in Papua New Guinea and is the largest port operator in the South West Pacific, outside Australia and New Zealand. PNGPCL continues to develop the capacity of its workforce to deliver high quality service to all stakeholders and is committed to attracting the highest calibre of professionals who can make a difference to the organization. PNGPCL provides a positive work environment and rewards employees who contribute to business success.

Reporting to the Manager Engineering, this position is responsible for overseeing Land and Marine Infrastructure CAPEX and R&M Projects earmarked to be implemented and delivered by PNGPCL.

Key Responsibilities:

- Coordinate and implement all CAPEX & R&M Projects in all stages of the project life cycle including planning, feasibility, investigation, design and scoping, tendering, procurement, implementation and closeout within acceptable timeframes, performance and budget requirements
- Develop and scope infrastructure project requirements in accordance with PNGPCL's operational and business needs
- Plan, Prepare, Coordinate and Deliver all tendering requirements within PNGPCL's Procurement Policy and Procedures
- Lead and provide guidance to the Engineering Team in Project Supervision and Contract Administration consistent with acceptable Project Management Standards and Practices
- Provide appropriate and regular reporting on status and progress of projects as and when required by PNGPCL management
- As required, conduct regular inspections on existing port infrastructure (Land and Marine) and perform conditional assessment reports for planning and implementation purposes
- Provide support on resource planning for all infrastructure projects and ensure they are on track with the implementation plans and schedules
- Attend to any Project related matters as and when directed by the Manager Engineering.

Expected Competencies:

- Recognized university degree in Civil Engineering
- Be a Registered Member of IEPNG
- Minimum of 10 years' experience in a similar role with minimum of 5 years' construction experience (experience in marine/port engineering industry is an advantage)
- Very good knowledge of all Statutory Requirements for Civil Engineering including PNG and international regulations, codes, standards and practices
- Very Good knowledge in Project Management best practise
- Very good knowledge in Contract Administration and Project Supervision
- Very good strategic thinking, planning, organization and problem-solving skills
- Good leadership, organization and motivational skills with people and operational management skills
- Excellent written, oral communication and negotiation skills with the ability to lead change and continuous improvement
- Excellent interpersonal and analytical skills
- Relevant Engineering Software Computer Application skills
- Excellent Technical Reporting and Filling skills.
